Sardar Colony, Street # 6, MalikPur, Nishaatabad, Faisalabad

Professional Summary

I am a Pakistan-based full-stack mobile and web app developer with expertise in both frontend and backend development. I specialize in creating visually appealing, interactive, and user-friendly designs that offer seamless experiences. On the backend, I ensure scalable solutions with clean and efficient architecture. I take pride in building software that not only works smoothly but also adds value to people’s lives. Crafting excellent, impactful applications is something I truly enjoy.
